**DETAILED ACTION**

***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9 and 17-21, drawn to a carrier and two-component developer, classified in class 430, subclass 111.3.
- II. Claims 10-16, drawn to a developer, apparatus, and process cartridge, classified in class 399, subclass 267.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a developer for a cascade development process where the two-component developer is allowed to fall across an electrostatic latent image. See MPEP § 806.05(d). Applicants are advised that the carrier and two-component developer containing the carrier is not seen as a material limitation to the developer because it is a material worked upon by the apparatus during the intended use of the developer, apparatus, and process cartridge. As such, it does not provide a material limitation to the developer, apparatus, or process cartridge. See MPEP 2114 & 2115.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1756

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
